

The live leaderboard is available on a TV set up at the course. Players can also access the leaderboard on their phones.

The leaderboard screen rotates between scores, sponsor messages, photos that we take during the day, plus any photos that player's take during their round. These will play as a slideshow during your dinner.

LIVE SCORING PLUS!!!!

Here's what you get

A dedicated website for your event that we maintain for you at no charge.

We print out scorecards for your participants to use. They can have sponsor messages and logos printed on them. Players use the scorecard but also enter scores on their cell phones.

Your pro has the results instantly as soon as players finish. No need to chase groups down looking for scorecards, an hour after everyone's had a few drinks, trying to read their scribbled scores.

The Website remains as a marketing tool for you throughout the year helping make next year's outing easier to sell to sponsor's and players
